Terms of Reference of Proposed Intelligence Working Group

The representatives of the three military intelligence agencies have agreed to the proposed membership of the Intelligence Working Group with the understanding that the IAC representatives would constitute a group within the larger group to meet separately as required. They are now considering the proposed Terms of Reference and expect to confer with CIA tomorrow or Monday following which we will have the first meeting of the designated representatives. The appointment of the Group and the Terms of Reference can then be reported to IAC as suggested by you.
